

[Learn a second language with us!](#)

All our results are now produced in version 1 and will be piloted to check their efficacy and suitability and then finalized in version

The **E- training courses addressed to L2 Learning supporters and L2 learners will be piloted in France, United Kingdom and Italy in national language.** In each of these countries the E-courses will be self-administered and facilitated by a facilitator, at a distance, with at least **20 Learning Supporters and 40 learners** engaged or willing to engage in self-directed L2 learning in a sector / for a topic of their choice. Part of the training will consist in supporting learners involved in self-directed learning on the E-course.

Our facilitators will be available to explain how to use the platform, to support participants in the process of learning, to assess their learning and collect their feedbacks on the E-courses.

The **Guides on supporting individualized learning with web based OER will be also piloted at a distance** addressing L2 Learning Supporters and adult learners choosing as second language French, Italian or English.

In Austria and Poland, but also in other European countries, our partners can **organize the pilot of these materials in English version.**

Contact us if you're interested to subscribe freely our e-courses.
