GENERAL INFORMATION ABOUT LIFE IN THE UK

HEALTH AND MEDICAL SERVICES

It is important that you tell the welfare staff if you have any medical conditions, this means we can help you get any assistance you may need quickly.

GENERAL MEDICAL ADVICE

If you need general medical advice, you can visit the NHS Walk-In Centre in the centre of Southampton. You do not need an appointment, but you may have to wait some time. The address is provided below.

Southampton NHS Treatment Centre
Level C, Royal South Hants Hospital
Brintons Terrace
Southampton
SO14 0YG

You will need have to have proof of identity, like your passport. You may have to pay for medical treatment. For more information, [click here](#).

You can also register with a local GP practice. Here, you will be able to make appointments. To find out about how to register with a GP practice visit [click here](#).

For further general information on health issues [click here](#) and [here](#).

HOSPITAL

The hospital is at the following address:

Southampton General Hospital,
Tremona Rd,
Southampton
SO16 6YD

Tel: 023 8077 7222

Don't go directly to the hospital unless you have an emergency.

EMERGENCIES

If there is an emergency in the school, inform a member of staff as soon as possible. You should also contact our first aider Gaurav Vahi gaurav.vahi@eurospeak.ac.uk for assistance.

If you need medical help immediately, call 111 (NHS Direct).

For emergencies, call 999 (Accidents and Emergencies). This is for people with serious injuries or serious illness requiring immediate treatment.

DENTAL TREATMENT

You should try to have your teeth checked by a dentist at least once a year.

You can find lists of dentists who give NHS treatment at local main post offices or at [Find a dentist - NHS \(www.nhs.uk\)](https://www.nhs.uk)

You should ask the dentist whether they accept National Health Service (NHS) patients - many do not. The dentist may wish to conduct the same process for checking your entitlement to NHS care as a General Practitioner (GP) [Find a GP - NHS \(www.nhs.uk\)](https://www.nhs.uk) would. If you already have a GP, then the dental practice should contact the GP to ensure that they have undertaken an entitlement check. If accepted by the dentist as an NHS patient, you will need to give the dentist the NHS number on your medical card.

If you are entitled to NHS treatment, you may still have to make a contribution towards the cost of your dental treatment. If you are not entitled to NHS treatment, or the dentist you choose does not take NHS patients (some dentists will only accept private patients), you will have to pay for the full cost of your treatment.

You may be able to get free dental treatment from dental students at a teaching hospital. This applies even if you are not entitled to NHS treatment.

If you need dental treatment in an emergency

call a dentist: some surgeries offer appointments at short notice.

if you do not have a dentist, find one using [NHS 111](https://www.nhs.uk)

INSURANCE

We advise all students to take out International Student insurance before travelling or as soon as they arrive. You could use Endsleigh or STA Travel. You may have to pay for medical treatment in the UK and this will help to cover the costs as it can be expensive.

RENTING A FLAT OR A HOUSE

If you are hoping to rent your own house, flat or room it is very important that you make sure it is right for you before signing any contract or agreement. Most property owners and estate agents ask you to sign a minimum 6-month contract, so it is important you decide carefully before signing anything. It is a good idea to visit the property at least twice before you decide to rent. This list may be helpful to you and recommends things to look out for:

- What types of people live in the neighbourhood? If you are renting with your family, you might prefer a more family-friendly area rather than a neighbourhood with lots of students. Is the area quiet or busy?
- Do you feel comfortable and safe there?
- How close is the property to the local shops, supermarkets, bus routes or schools?
- Are there extra costs like TV License and Council Tax?
- Is car parking easy?
- Will the property be cheap to heat and light? Are there meters for your water, gas and electricity? You should ask what the average costs have been for people who lived there before.

- Does the property look to be in good condition? A property that looks dirty or in a bad condition with broken things can mean that you could have problems in the future.
- Is the property worth the rent being asked for it?
- Make sure there are smoke detectors and carbon monoxide detectors.
- Make sure that the property owner is registered with the Landlord Deposit scheme.
- Check on what furniture and cooking equipment are included. Is contents insurance included?

You may be required to pay Council Tax. [Click here](#) to find out more about this.

PERSONAL SAFETY

This is generally a safe city. However, it is always best to follow these tips to stay safe in the UK.

- DO NOT give out personal details or bank details over the phone or on the internet (even if they say they are calling from places such as your bank or the UK Border Agency).
- If you receive a suspicious phone call, write down the telephone number and name of the personal calling and say you will call them back, then bring the details into the office and we will help you.
- Always keep your passport safe. Keep a photocopy of the important pages of your passport somewhere safe. If you do lose your passport, contact the Police and your Embassy as soon as possible.
- Don't carry large amounts of cash (no more than £250). Try to bring a credit card or travellers cheques and keep these safe. Do not keep your passport, ID card and money together.
- Always have the school telephone number (02380636494) close by. Put it in your phone and keep it on a piece of paper.

- Always use a registered taxi. You can either pre-book a taxi on the phone, or you can use a 'black cab' from the city centre, just be careful that these are real ones.
- In your home make sure your important things such as TV and laptop cannot be easily seen through a window. Also, never leave cash or credit cards lying around your home.
- If you carry a laptop in public, try not to use a computer carry case. Use an ordinary backpack or large handbag to make the laptop less obvious. Always think carefully before using your laptop in crowded places.
- Avoid displaying expensive items such as jewellery, mobile phones and iPods (including earphones) in busy public places or at night.
- Avoid travelling alone. Travel in bright and busy areas.
- Avoid short cuts like dark paths and parks if you are alone or not certain of the area.
- Always carry your mobile phone or enough small change to make a phone call or take a short taxi journey.
- Be sensible when using your mobile phone.
- When using a public telephone, face outside so you can see out of the phone box.
- If you think you are being followed, cross the street. If you still don't feel safe, make your way to a public place like a shop or restaurant as soon as possible. Don't stop in any empty areas.
- Avoid all fights, walk away if someone is being aggressive towards you.
- Be careful when using a cash machine, never write down your PIN number and never give it to anyone.
- If you live in a student residence, make sure no stranger follows you in when you go through the main entrance.
- Have your keys ready well before you reach the car or house but don't make them obvious.

- Keep your bag close to you however if someone tries to take it let it go. Your safety is more important.

If you have any concerns about your safety in the UK or in school, please come and speak to any member of the admin team.

HOMESICKNESS

Being away from home can be very difficult and although most students get over their homesickness after a few days there are some students who experience more long-term difficulties. Some of the reasons could be, for example, the culture, the weather, the food, or missing family and friends. If you are experiencing homesickness, there are some things you can do to help:

Keep busy

In the first few weeks it is a good idea for you to go to the classes on the course and get to know your classmates and teachers. This will help you to make new friends. You can also join the social activities and trips to meet new people. It is never a good idea to stay in your room for long periods as this is likely to make you feel lonely.

Keep a positive attitude

Try and keep positive. Remind yourself about why you are studying and what your long-term goals are for the future. Try not to think about the things that make you sad and try and concentrate on your studies and your new experiences. The more positive you are the quicker the negative feelings will go.

Stay fit and healthy

Eating properly and sleeping well are both important. If you make sure you make food regularly and as healthy as possible you will be able to concentrate better, and your energy levels will improve. Good quality sleep is essential. Staying up late every night and playing video games or going out with friends is not a good idea during the week when you are studying. Late nights should be kept to the weekend only.

Family and friends

Keeping in touch with your family and friends is important and regular contact will be helpful and useful to your studies. It is not a good idea to spend long periods every day on the phone telling your family how bad you feel. This will make you feel worse, and your family and friends will worry about you.

Speak to the staff at school

If you feel sad or depressed, you should always speak to a member of the team at school. They can give you lots of advice and ideas. Remember most students feel homesick when they arrive, and you are not the only student with these issues. We are experienced in handling student's problems and worries so please share your feelings with us. We can also give you information on culture shock and staying safe during your studies.

STUDYING AT BRITISH UNIVERSITIES

If you are interested in studying at a British university, please contact Gaurav Vahi in the office, or by email or telephone on gaurav.vahi@eurospeak.ac.uk or 023 8063 6494.

British universities can be very different to universities in your home country. Students often ask us questions about British universities. Please read the questions and answers below. It will help you prepare for going to university.

What types of lessons will I have at university?

There are two types of lesson: lectures and seminars. Lectures are very big classes with sometimes more than a hundred students. In lectures you don't ask questions (except at the end), instead you listen and make notes. Seminars are small classes with usually 10- 12 students or less. They are not like lessons at school. In a seminar, you will discuss and talk about what you have read before the seminar.

Will I learn everything I need from my seminars and lectures?

No, you will only learn the basics of your course from your lectures. You will also carry out some reading to continue developing your knowledge of the subject.

How will I learn things, then?

You will learn from reading books and articles published in scientific magazines.

How much time will I spend reading every day at university?

You will spend about 4 to 6 hours a day reading and studying after your lectures. This is an estimate only, and in many cases, you may need more time.

How fast will I need to be able to read in English to study at university?

You will need to be able to read fast and fluently, close to how you read in your first language. You will not be able to look up every word you don't understand in a dictionary as you won't have time for this.

[Will my teachers tell me what read for my assignments?](#)

No, they may give you a general list of books and articles, but you will have to then select what you want to read and find your own books and articles (for example, in the library).

[How many books or newspapers will I need to look at to do an assignment?](#)

It depends on your subject. For a Bachelor's degree, you may need about 6 or 7 books/articles to do an assignment. For a Master's you will need more.

[Do I need to read and write very well in English? My speaking and writing are very good.](#)

You can't pass a British university degree with poor reading or writing skills. You must try to improve your reading and writing.

[How can I learn to read better at Eurospeak?](#)

You should read regularly. We have a collection of graded readers (short books with simple language), talk to your teacher if you would like to borrow one. Try to read as much as you can outside of school.

Many of our students plan to take the IELTS exam, as this is, in general, an entry requirement at British universities. To apply for an IELTS exam [click here](#). You can then choose which date you would like to take your exam as well as the city you want to take it in. You can apply online or get an application form from the office.

INFORMATION FOR VISA STUDENTS

If you are studying at the school on a Tier 4 student visa and you have been issued with a CAS (Confirmation of Acceptance for Studies) you must not breach the terms of your visa. To find information about the conditions of your stay on the UK Border Agency website [click here](#).

As a student, you:

- Must not ask for any government benefits (also known as 'public funds') for which you do not have the right;
- Will need to register with the police, if this is required under paragraph 326 of the Immigration Rules (information can be found on your visa);
- Must go to all your classes; the school has reporting duties and will inform the UK Border Agency if you stop attending without contacting the school.

If you need to renew your visa or extend your visa you are able to do so in the UK as long as you meet the financial requirements and have a CAS (Confirmation of Acceptance for Studies).

STUDENT VISITOR VISA OR EXTENDED STUDENT VISITOR VISA

If you are on a student visitor visa or an extended student visitor visa and you would like to find more information about the conditions of your stay [click here](#). You cannot extend or renew this type of visa and will need to return home to your country when the visa finishes.

You can speak to Gaurav Vahi or to the reception team if you have specific questions about your visa or you can email them on gaurav.vahi@eurospeak.ac.uk or international@eurospeak.ac.uk.

SMOKING

In the UK you must be 18 or over if you want to buy cigarettes. Smoking is not allowed in the school. If you wish to smoke, you may do so outside but be careful. Please do not stand near the door when smoking.

Do not throw cigarettes on the floor outside the school or anywhere in the street in any city as you may face a fine from the municipal authorities.

ALCOHOL

Do not drink alcohol if you are under 18.

In the UK you must be 18 or over to buy alcohol. You must be 18 to drink alcohol in a pub. If you are 16 or 17 you can go into a pub but can't drink alcohol.

Students must not be drunk on the school grounds at any time. Students must not come to school if they have drunk any alcohol.

Many UK students go to pubs to meet friends. Some people do not drink alcohol in pubs. You can drink cola, lemonade or orange juice, or you can eat food. If you are having alcohol for the first time, be careful. If you feel drunk, ask your friends to take you home or call for a recognised taxi firm.

DRUGS

In the UK many drugs are against the law. You might go to prison if you buy, take or sell drugs. If someone offers you drugs you should refuse. Students must not come to school if they have taken drugs.
